

## PROMOTE BUILDING WORKS FINANCING SCHEMES

### OBJECTIVE

To improve urban quality.

### DESCRIPTION

To improve urban quality, building financing is used for the purchase of areas for the construction of equipment and/or public services (public parks, car parks, etc.). It is also strategic to the improvement of urban quality, through the decongestion of built-up areas, relocating in whole or in part the relative volumes, or through urban furnishing interventions, creating cycle paths, ecological networks, road adjustments and related intersections.

### EXPECTED RESULTS

Demolition of outdated buildings, removal of elements of decay, implementation of interventions aiming at the improvement of urban quality.

### RESULT INDICATORS

Areas of redeveloped territory [m<sup>2</sup>]

Local stakeholders, government at different levels.

### EXPECTED TIMELINE FOR ACTION

- Medium term (5-10 years)

### BEST PRACTICES

- Veneto Region - Italy
- Veneto Region - Italy
- UK and Germany

### CRITICALITIES

Possible delays with granting of incentives.

### SCOPE OF THE ACTION

- Adaptation
- Mitigation

## TYPE OF PROPOSED ACTIONS

- Grey
- Soft

## SECTOR OF ACTION

- Biodiversity / Conservation of ecosystems
- Urban settlement

## CLIMATE IMPACTS

- Change or loss of biodiversity
- Other

## IMPLEMENTATION SCALE

- Municipality
- Province
- Region / Country
