

## PROMOTE SUSTAINABLE CLIMATE MEETINGS

### OBJECTIVE

Giving information on climate change.

### DESCRIPTION

Organization of future conventions on climate change. It could be possible to focus the meetings on different themes like storms, drought, temperature, precipitations, wind, sea.

### EXPECTED RESULTS

Raised awareness in order to stimulate people to act proactively, investing in technical, cost-intensive end-of-pipe solutions such as higher dikes or a bigger sewer.

### RESULT INDICATORS

Number of participants.

### INVOLVED ACTORS

Local authorities, climate experts, technicians, citizens.

### EXPECTED TIMELINE FOR ACTION

- Short term (1-4 years)

### BEST PRACTICES

- Emscher Region - Germany
- Italy
- Friuli Venezia Giulia Autonomous Region - Italy
- Veneto Region - Italy
- Marche Region - Italy
- Apulia Region - Italy

### CRITICALITIES

Space and cost for meetings and commitment to rise people involvement.

### SCOPE OF THE ACTION

- Adaptation

## TYPE OF PROPOSED ACTIONS

- Soft

## SECTOR OF ACTION

- Agriculture / Forests / Land use
- Aquaculture / Fishing
- Biodiversity / Conservation of ecosystems
- Coastal management
- Energy
- Industry
- Public health
- Tourism and leisure
- Transport and infrastructure
- Urban settlement
- Waste management
- Water resource management
- Other

## CLIMATE IMPACTS

- Change or loss of biodiversity
- Coastal erosion
- Drought
- Extreme precipitation
- Extreme temperatures
- Fires
- Floods
- Salinization and acidification of water
- Strong winds

## IMPLEMENTATION SCALE

- Municipality
